To whom it may concern

RE: A & P Carpentry

We have worked on several developments with A & P Carpentry and have got to know their personnel.

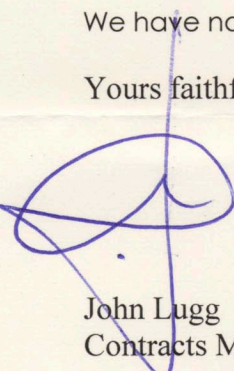

They are a responsive responsible contractor who price work in a timely manner and then attend site when required.

Their workmanship meets current standards and their personnel are safety conscious in that they the correct PPE at all times.

The most important aspect is that they will help with problems by offering solutions and then carry them out.

We have no hesitation in recommending there services to others.

Yours faithfully

John Lugg
Contracts Manager
